

Clark Forklift Part

Clark Forklift Part - Currently, there are over 350,000 Clark forklifts performing worldwide, and upwards of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specific items built for 20 exclusive brands of lift trucks and automated equipment. Your regional Clark Dealer is your complete source for availability of all your components needs offered by Clark Totalift.

Clark has a exceptional Parts Distribution team. The items warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Globally, Clark has one of the most impressive supplier support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is now a customary feature on every lift truck.

Clark has a relentless mission to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the extremely economical and advantageous structure of "Lean Manufacturing" for its assembly plants and application of resources. This system was developed to acknowledge the most effective method of production plant management and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to perfect the proficiency and brilliance of their products while minimizing costs. The new value engineering agenda combines innovative product improvement and provides superior consumer support and service within the industry.
