

Cascade Clamps

Cascade Clamp - Cascade Manufacturing Company was established in Portland, Oregon in 1943. They started out as a small machine shop in the beginning employing four people. Product sales for their initial year of operation totaled sixty thousand dollars. The first recorded sales revenues involved the assembly and machining of stainless steel valves, pipe fittings and different parts. During five years of operation, the business had stretched to 40 staff and their annual sales volume had risen to 330 thousand dollars. Nowadays, Cascade is one of the top global makers in the material handling industry.

Design and production of the company's very first hydraulic cylinder allowed this young business to aggressively engage in new business possibilities. Throughout the last 60 years, the business of material handling has grown into a really complex area with Cascade proudly playing a part in its growth. Cascade at present continues to grow as the best provider of lift truck attachments and different related products. The company feels confident in their ability in order to continue to lead the way in the business by understanding buyer's requirements in the future and remaining competitive within the international market.

In the 1950's, Cascade began designing, manufacturing and advertising hydraulic attachments. Manufacturing was done in the year 1956 on a new facility in order to accommodate all plant and office operations in Portland, Oregon at the company's current headquarters. Subsequent to 15 years of business, total workers reached 180 workers and sales had reached nearly 2.3 million dollars.

1959 in Springfield, Denton the next manufacturing plant was built. nineteen sixty marked Cascade's initial move into the global world of the material handling industry when the company recognized interest in the Netherlands, England, and Australia.

In 1964, the business changed its name to the Cascade Corporation. Afterward in 1965, the company went public with a preliminary offering of 200,000 shares of common stock. Since then the business has expanded its manufacturing services throughout the continental US to the locations Warner Robins Georgia to go along with its already present plants in Springfield, Denton and Portland, Oregon. Cascade products are manufactured worldwide due to numerous subsidiary operations. In 1994, a new plant was accomplished in Almere, the Netherlands which is Cascade's European control center. This plant is designed to be the essential customer service centre.

Cascade further expanded their product base in 1996 and the year 1997 subsequent to buying 5 corporations, which included the Kenhar Corporation, the worldwide leader in forks.
