

Rockwell Part

Rockwell Part - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to meet and exceed their clients' expectations for quality, service, technology and delivery. They believe in working within an atmosphere which supports the highest integrity with empowered teamwork, together with a persistent pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious business and providing a safe environment for their workers to work in. Additionally, they have implemented a lot of programs within the corporation in order to help convey these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whichever questions or comments, as they are glad to promote and share this policy with a greater understanding of their efforts. They are really dedicated to preserving and improving the surroundings. AxleTech has an EHS program which not just protects the natural environment but which even actively protects their workers and neighbors too.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in manufacturing and designing planetary axles meant for both military and commercial applications. These applications range from airport ground support to construction equipment. AxleTech specifically designs axles in order to meet particular application demands. They have over one thousand different axle specs in their existing offering. With over one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The company is well known in various military and commercial applications. They provide complete axle assemblies used for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have extra details that could be seen in the "ISAS" product collection.
